Dark Brown Black	Dark Brown Black	Brown	Never Burn Tan Quixkly Insensitive to Sun	Red Blonde	10% DHA 12% DHA 1HR RAPID

Important Information: The life of your Sunless tan and the results can be based on the application technique, skin tone, skin condition and development time. Oily skin tends to remove the tan quicker, shortening the length of your tan and dry skin tends to grab and prolong the tan which can result in hard to remove areas where exfoliation maybe necessary. Preparation of the skin, exfoliation and shaving is also an important factor before application.
